

## Press Release: iGM Resins Partners with Qualipoly for Supply and Distribution Agreement.

FOR IMMEDIATE RELEASE

**QUALIPOLY**  
Chemical Partner of iGM Resins

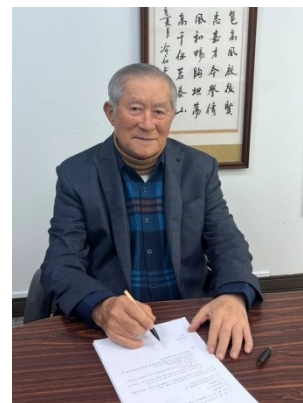

February 13, 2023, Waalwijk, The Netherlands – iGM Resins, leading global provider of energy curing raw material solutions, is proud to announce an exclusive supply and distribution agreement with Qualipoly Chemical Corporation, a global leader in the industrial supplies market.

The partnership will allow for the distribution of Qualipoly full range of advanced Energy Curing Resins across iGM Resins network. Customers will now have access to a wide range of materials to meet their specific needs, from general purpose resins to specialty resins designed for various industries such as graphic arts, industrial coatings, adhesives, and 3D printing.

"Today's contract with Qualipoly marks the start of a new phase in iGM's journey, as we now become a Pure Player in the field of energy curing technology. With the recent acquisition of Litian and our full portfolio of Additive and Photoinitiator, we are determined to stay ahead of the curve and bring innovation and sustainability to our global customers." Said Mr. Wilfrid Gambade, CEO of iGM Resins.

"With a shared commitment to excellence and innovation, Qualipoly Chemical Corporation and iGM Resins are striving to meet all customers' needs." said Mr. Yeou-Liang Tsai, our Chairman, and founder of Qualipoly Chemical Corporation. "By joining forces, Qualipoly Chemical Corporation and iGM Resins will bring a wealth of expertise and resources together, delivering even more value to customers and driving growth in the advanced UV materials industry."

Qualipoly is committed to providing customers with the best selection of energy curing resins and the highest quality customer service. With this exclusive agreement, customers can expect to receive the same level of service they have come to expect from iGM Resins.

For more information on iGM Resins' new supply and distribution agreement with Qualipoly, please contact [sales@igmresins.com](mailto:sales@igmresins.com).

Wilfrid Gambade,  
CEO of iGM Resins

## About IGM Resins

IGM Resins specializes in the development, manufacture, and supply of products and technical services to the global energy curing coatings and inks market. IGM Resins develops, produces, and distributes a full range of radiation curable materials including photoinitiators, energy curing oligomers and monomers, and additives from manufacturing facilities in Europe, Asia, and the US, supported by technical labs in each of these regions to help create next generation energy curable coatings and inks. For additional information on IGM Resins, visit [www.igmresins.com](http://www.igmresins.com) or on twitter @igmresins.

## About Qualipoly Chemical Corporation

Qualipoly Chemical Corporation (QPC) is a leading chemical company based in Taiwan that specializes in supplying UV curable materials, unsaturated polyesters, and a variety of synthetic resins. QPC was established by Mr. Tsai Yeou-Liang in 1978, and has since expanded its business to more than 40 countries across five continents.

The company is committed to investing in green technology and high-value synthetic resins for electronic applications. Recognizing the potential of UV curable materials, QPC has recently invested in a new production capacity in Tainan that is set to become operational in mid-2024.

QPC is a public company and is listed on the TWSE under the stock code 4722.
