

iGM Resins Announces Strategic Distribution Partnership with IDCC Global Chem Pvt. Ltd. to Boost Indian Market Presence

Waalwijk, The Netherlands – December 15, 2025

iGM Resins, global leader in providing energy curing raw material solutions, is pleased to announce a new exclusive distribution partnership with IDCC Global Chem Private Limited for the entire Indian market.

This collaboration is a pivotal step in iGM Resins' commitment to expanding its global footprint and delivering unparalleled service and access to its comprehensive product portfolio across the dynamic Indian subcontinent.

The partnership officially commences on **January 1, 2026**, and will cover the full range of iGM's product portfolio, including our photoinitiator brands (Omnirad®, Esacure®, Omnipol®, Omnicat®), energy curing resins (Photomer®, PureOmer®, Omnimer®, Omnilane®), and specialized additives (Omnivadd®, PureVadd®).

Enhanced Customer Service and Market Access with IDCC Global Chem Pvt. Ltd.

IDCC Global Chem Private Limited, a premier specialty chemicals distributor in India with over 51 years of industry experience and an extensive distribution network, is the ideal partner to manage the future

growth of the energy curing market.

"The Indian market is vital to our global growth strategy, and our customers there deserve the highest level of regional support and reliability," said **Mr. Ankit Saxena, Global Product Management & Marketing Director** at iGM Resins. "Partnering with IDCC Global Chem Private Limited, a company known for its technical expertise, robust logistics, and deep relationships across key segments like inks, coatings, and adhesives, ensures our customers will receive faster, more efficient service and tailored technical solutions."

IDCC Global Chem Private Limited's deep understanding of local market needs, coupled with its wide distribution network covering major industrial hubs will significantly enhance the availability and support for iGM Resins' entire product portfolio.

Mr. Bharat Arora, Managing Director at IDCC Global Chem Private Limited commented, "We are incredibly proud to partner with iGM Resins and bring their world-class photoinitiator and resin portfolio and additives to our extensive customer base. This partnership allows us to strengthen our offering in the high-growth energy curing sector, providing our clients with innovative, reliable, and sustainable UV/EB curing materials."

Transition and Coverage Details

iGM Resins will continue to directly serve our global key accounts in India. All other customers will be seamlessly served by IDCC Global Chem Private Limited. Both iGM Resins and IDCC are committed to ensuring business continuity, and dedicated teams from both organizations will be in touch as needed to manage the transition, provide technical support, and answer any questions.

Customers are encouraged to contact their current iGM Resins sales representative or reach out via the contact details provided below for any transition inquiries or technical support.
