

## Press Release: IGM Resins appoints Solindis as distribution partner

**December 1, 2021, Waalwijk, The Netherlands – IGM Resins is pleased to announce the creation of Solindis, a new company who will act as exclusive distributor for IGM for a large group of European, Middle East and African customers as of the 1st of January 2022.**

Due to the continuous growth of IGM's business, under the umbrella of our Go Grow Green strategy, it was time for IGM to develop a strong distribution model in EMEA: Solindis, a new company, led by Ruud Kuijsters and Frans de Wind who will be the ideal partners to drive growth. With their experience and contribution to the growth of IGM in the past 16 years, we are confident that our partnership with Solindis will provide our customers in the UV market with an outstanding quality and exceptional customer service, and we will be able to serve the growing and changing needs in the Energy Curing market.

IGM's CEO, Wilfrid Gambade: "I'm proud that IGM could establish a tailor-made distribution model that will support the growth and the continuous increasing market needs with the creation of Solindis, a company that will work closely and at arm's length with IGM to improve the service level and support the market and to better serve a customer portfolio fragmented in a very large geographical region like EMEA."

### About IGM Resins

IGM Resins specializes in the development, manufacture, and supply of products and technical services to the global energy curing coatings and inks market. IGM Resins develops, produces, and distributes a full range of radiation curable materials including photoinitiators, energy curing oligomers and monomers, and additives from manufacturing facilities in Europe, Asia, and the US, supported by technical labs in each of these regions to help create next generation energy curable coatings and inks. For additional information on IGM Resins, visit [www.igmpresins.com](http://www.igmpresins.com) or on twitter @igmpresins.

### About Solindis

Solindis is founded in 2021 as independent distributor of specialty chemicals with a focus on the Energy Curing Industry, by representing IGM Resins' product range of UV curable materials to a large group of customers in EMEA. Solindis will support customers to develop business in growth markets by providing technical solutions and local supply of customized quantities. With over 30 years of experience in different commercial and leadership roles within the industry, we know what is most valuable for our customers and what is necessary to build a partnership and deliver.
